Specific information on the implementation of articles 1–16 of the Convention, including with regard to the Committee’s previous recommendations

Issues identified for follow-up in the previous concluding observations

1. In its previous concluding observations (CAT/C/ARG/CO/5-6, para. 43),¹ the Committee requested the State party to provide information on follow-up to the recommendations that claims of murder, torture, arbitrary detention and abuse by the security forces should be investigated and perpetrators duly punished (para. 14 (a)); that the State party should proceed with setting up the National Committee for the Prevention of Torture and local mechanisms (para. 26); and that a national register containing information from the country’s courts on cases of torture and ill-treatment should be established (para. 32). Noting that a response to this request for information was received on 11 May 2018 (CAT/C/ARG/CO/5-6/Add.1) and with reference to the letter dated 23 October 2018 from the Rapporteur for follow-up to concluding observations, the Committee considers that the recommendations contained in paragraphs 14 (a), 26 and 32 of the previous concluding observations have been partially implemented (see paras. 4, 22 and 27 below).

Please also specify the measures taken to ensure that persons deprived of their liberty enjoy, in practice and from the outset of their detention, all fundamental legal safeguards, including in cases of flagrante delicto, especially the right to be informed of their rights and the reasons for their arrest, the right to receive legal assistance and the right to be brought immediately before a judge. Please also report on measures taken to check that police records indicate the time of arrest and transfer and the precise duration of police custody. Please specify the number of sanctions imposed, by jurisdiction, on officials who have failed to record data or to observe fundamental safeguards.

4. In accordance with the previous concluding observations (paras. 25–28) and the letter from the Rapporteur for follow-up to concluding observations, provide information on measures taken or planned to ensure that the persons appointed to the National Committee for the Prevention of Torture do not occupy positions that might give rise to conflicts of interest, and to ensure that the national preventive mechanism enjoys full institutional, political and financial independence, in line with the Optional Protocol to the Convention and the principles relating to the status of national institutions for the promotion and protection of human rights (the Paris Principles). Please provide up-to-date information on the number of provinces that lack local mechanisms, as well as on the measures that will be taken in order to overcome the obstacles to establishing such mechanisms and in order to provide the necessary resources for them to function. Please indicate whether hospital protocols for access to legal abortion have been adopted in all provinces in order to combat the ill-treatment of women seeking reproductive health services. 3 The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee’s general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.
