2. In view of the information provided in paragraph 34 of the report that it is difficult to estimate the extent of sexual exploitation of children in the State party “since the visible part of it is just the ‘tip of the iceberg’” please clarify if the State party envisages establishing a mechanism and procedures for collecting, analysing and evaluating disaggregated data and other information on the sale of children, child prostitution and child pornography, as well as on the implementation of the Protocol at district and municipal levels.

3. Please provide information on the implementation and impact of the amendments of the Penal Code by Law 59/2007 (arts. 160 and 169), which extend the crime of trafficking in persons for the purposes of sexual exploitation to also include forced labour, trafficking in organs and other forms of trafficking.

Please indicate whether the State party has established an inter-ministerial mechanism to coordinate the implementation of the Optional Protocol across three ministries concerned, namely the Ministry of Justice, the Ministry of Labour, Solidarity and Social Security and the Ministry of Internal Affairs. Furthermore, please provide detailed information regarding monitoring and evaluation of the implementation of the Optional Protocol at district and municipal levels.

8. Please describe the specific measures and programmes that have been developed to combat forced labour and forced begging, where children are at risk of sexual exploitation, trafficking, sale, prostitution and pornography. In this regard, please include information on the implementation of the Second National Plan against Trafficking of Human Beings (2011-2013) and other
programmes to prevent and combat offences under the Optional Protocol.

11. Please also inform the Committee if the State party has established a specialized mechanism to respond to missing or abducted children, as well as to ensure effective investigation and timely coordination with other bodies working to prevent and protect children from abduction for sale, child prostitution and child pornography.

12. With regard to the information provided in paragraphs 8 and 51 of the State party’s report that “the crime of child pornography has increased enormously” in the State party and that “the use of information technologies and its commercial use have created several problems for investigators,” please inform the Committee of the measures taken by the State party to effectively prevent and prosecute such crimes.
