Issues identified for follow-up in the previous concluding observations

1. In its previous concluding observations (CAT/C/MCO/CO/6 para. 24), the Committee requested the State party to provide it with information on the follow-up to its recommendations concerning: (a) clarification of the procedures applicable to asylum seekers and the arrangements for cooperation between the State party and the French Office for the Protection of Refugees and Stateless Persons; and (b) the follow-up of prisoners serving their sentences in France following a transfer, formal legislative recognition of the need for prisoners’ consent to such a transfer, and the implementation of the procedure for the exchange of letters between the French Ministry of Justice and the Monegasque Director of Judicial Services in order to give effect to the follow-up of transferred prisoners. These recommendations are set out in paragraphs 13 and 19 of the Committee’s previous concluding observations. In the light of the information received from Monaco on 7 December 2017, concerning follow-up to the concluding observations (CAT/C/MCO/CO/6/Add.1), and the letter dated 20 August 2018 from the Committee Rapporteur for follow-up to concluding observations to the State party, the Committee regrets to note that its recommendations have not been implemented. The above issues are addressed in paragraphs 5 to 11 of the present document.

3. With regard to fundamental legal safeguards, please provide the Committee with information on the implementation of article 60-7 of the Code of Criminal Procedure, which provides for the right of persons taken into police custody to contact a member of their family by telephone straight away, a principle subject to one exception: in the event that the criminal investigation officer considers that such communication would be detrimental to the investigation, he or she refers the matter to the principal public prosecutor or investigating judge for a decision. Please indicate the frequency of the application in practice of this exception to the rule, and the remedies available for defendants. Please also indicate whether there are any plans to amend article 60-7 of the Code of Criminal Procedure to ensure that all detainees, regardless of the offence in question, may exercise, from the outset of their deprivation of liberty, the right to notify a person of their choice of their detention.

4. Please describe the measures taken by the State party to ensure that the Office of the High Commissioner for the Protection of Rights and Freedoms and Mediation can be accredited as complying with the principles relating to the status of national institutions for the promotion and protection of human rights (Paris Principles) by the Global Alliance of National Human Rights Institutions. To that end, please describe the conclusions of the impact assessment on ratification announced by the State party.³

5. Please provide information on any measures taken to strengthen the independence of the judiciary. In particular, please indicate whether there are plans to reform the constitutional principle of delegated justice, according to which judicial power is vested in the Prince, who delegates its full exercise to the courts and tribunals, which render justice on his behalf. Please describe any measure taken to strengthen the role of the High Council of the Judiciary as guarantor of the operational independence of justice and ensure the nomination of judges and prosecutors using transparent and objective criteria.

² The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee’s general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.

10. Please indicate whether, since its sixth periodic report, the State party has concluded any new extradition treaties which include provisions relating to acts of torture. Please also provide examples of judgments and cases in which extradition has been granted or refused. Lastly, please indicate whether the State party has received or itself filed requests for mutual judicial assistance in any criminal proceedings relating to cases of torture.

Please indicate whether bill No. 984 of 9 November 2018 amending certain provisions on sentencing provides for such a prohibition and a legislative timeline for its adoption.

19. 20. Please provide updated statistics on the detention of minors at the short-stay prison, if relevant.
