\* The present list of issues was adopted according to the new optional procedure established by the Committee at its thirty-eighth session, which consists in the preparation and adoption of lists of issues to be transmitted to States parties prior to the submission of their respective periodic report. The replies of the State party to this list of issues will constitute its report under article 19 of the Convention.

<sup>1</sup> Unless otherwise indicated, paragraph numbers in brackets refer to the previous concluding observations adopted by the Committee, published under symbol CAT/C/LIE/CO/3.

<sup>2</sup> The issues raised under article 2 could also involve other articles of the Convention, including but not limited to article 16. As stated in paragraph 3 of the general comment No. 2 (2007) on the implementation of article 2 by States parties: "The obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment (hereinafter "ill-treatment") under article 16, paragraph 1, are indivisible, interdependent and interrelated. The obligation to prevent ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture ... In practice, the definitional threshold between ill-treatment and torture is often not clear." See further chapter V of the same general comment.

With reference to the Committee's previous concluding observations (para. 10), please indicate whether any amendments have been made to the Public Health Act, the Criminal Code or the Code of Criminal Procedure that explicitly guarantee the access of persons deprived of their liberty to an independent medical doctor, preferably of their own choice, during police custody.
