Committee against Torture

List of issues prior to submission of the fifth periodic report of Azerbaijan*

Specific information on the implementation of articles 1–16 of the Convention, including with regard to the Committee's previous recommendations

Follow-up questions from the previous reporting cycle

1. In its previous concluding observations (see CAT/C/AZE/CO/4, para. 40),¹ the Committee requested Azerbaijan to provide further information regarding areas of particular concern identified by the Committee, namely the eradication of widespread torture and ill-treatment, the eradication of arbitrary imprisonment and alleged torture of human rights defenders, and respect of fundamental legal safeguards (paras. 9, 11 and 13). Noting that a reply concerning the information sought by the Committee was provided on 7 December 2016, the Committee expresses its appreciation for the State party's responses on those matters and the substantive information provided. In view of that information, the Committee considers that the recommendations contained in paragraphs 9, 11 and 13 mentioned above have not been fully implemented (see paras. 2, 5 and 27 of the present document).

Article 2²

2. With reference to the Committee's previous concluding observations (para. 13) and the State party's follow-up replies, please provide information on the measures adopted since 2015 to guarantee, in practice, that all detained persons, including juveniles, are afforded the fundamental legal safeguards set out in domestic legislation from the outset of their deprivation of liberty, and in particular the right:

(a) To be informed orally and in writing, and in a language they understand, of both the charges against them and their rights and how to exercise them, as recommended

* Adopted by the Committee at its sixty-third session (23 April–18 May 2018).

¹ Unless otherwise indicated, paragraph numbers in parentheses refer to the previous concluding observations adopted by the Committee.

² The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.

by the Working Group on Arbitrary Detention.³ Please clarify, if applicable, if any of the measures in place aim at ensuring this right, in particular, to detained juveniles, persons with low literacy skills and foreign nationals;⁴

(b) To have confidential access to a qualified and independent lawyer, including one of the detainee's choice, or to free legal aid when needed.⁵ Please indicate, if applicable, if the measures in place to ensure these rights also aim at ensuring that there is a sufficient number of lawyers practising in all regions of the country,⁶ particularly in view of the implementation of the new Law on Lawyers. Please explain the measures in place to ensure that lawyers providing legal aid are properly remunerated,⁷ and that the legal advice provided is of good quality.⁸ Please also comment on the allegations that authorities have delayed access by detainees to an attorney in certain cases and whether these allegations have been investigated;

(c) To request and receive an examination by an independent medical doctor in full confidentiality.⁹ Please comment on allegations that the authorities have maintained a de facto ban on independent medical examinations of detainees who claimed mistreatment and whether these allegations have been investigated. Please also clarify whether doctors can bring medical reports of injuries suspected of being caused by torture directly to the attention of the public prosecutor on a confidential basis;

(d) To be able to inform a family member or any other person of their choice about their deprivation of liberty;

(e) To be brought before a competent, independent and impartial court within a maximum of 48 hours,¹⁰ or 24 hours in the case of juveniles.¹¹ Please also indicate the measures taken to ensure that persons deprived of their liberty are able to challenge the legality of their detention with the assistance of a lawyer;¹²

(f) To have their detention recorded in a register both at the place of detention and in a central register of persons deprived of liberty. Please clarify the steps taken to develop a comprehensive national registration system of persons deprived of liberty;

(g) To be questioned by the police in the presence of both a lawyer and a parent or guardian in the case of juveniles,¹³ as recommended in the previous concluding observations (para. 21).

3. Please indicate how the State party is monitoring compliance with the fundamental legal safeguards set out in national legislation and provide data on cases in which, during the period under review, officials have been disciplined or prosecuted for failing to respect the rights of detainees.

4. With reference to the Committee's previous concluding observations on the independence of lawyers (paras. 16–17), please provide information on the legislative or other measures taken to ensure that no executive or judicial authority initiates criminal or other sanctions against lawyers, or threatens to do so, for having taken any action in accordance with their recognized professional duties, in particular when representing victims of torture, human rights defenders, political opponents and journalists.¹⁴ In view of the implementation of the new Law on Lawyers and the consequent reduction of human rights lawyers able to practise law, please indicate whether the State party foresees any

Please indicate whether any measures have been taken to promote modern approaches to crime solving and evidence-based investigation, with a view to removing the need to secure confessions from suspects to obtain convictions.¹⁷
